---

Hi Eric,

I have signed the quote and it will be faxed today.

Bob

Subject: Quote for Chemical Analysis of Osprey Eggs Collected at Portland Harbor

Bob, attached is a quote from Axys for the analysis of 5 Osprey eggs collected at the Portland Harbor site. The quote is for HRGC/HRMS analysis for dioxins and furans, PCB congeners and organochlorine pesticides. Original estimates were for GC/ECD analysis for pesticides and PCB congeners and did not include the full set of 209 PCB congeners. We have made these changes to address LWG concerns raised in Keith Pine's December 18, 2008 email and to ensure that the data is consistent with other Portland Harbor tissue data sets. The cost for metals analysis (including mercury) will be picked up by the Portland Harbor Trustee group.

As soon as you sign and fax back the quote, we will have the samples transferred to Axys. It may be useful for us to discuss this topic further at our upcoming January 14, 2009 management meeting.

If you have any questions regarding this matter, please contact me.

Thanks, Eric
